

**Clarifications on the queries raised by M/s Bulk Material Handling Technologies, Pune
GPS Based Vehicle Tracking System for Pune City (Tender No. - 1606)**

Sr.no.	Query	Explanation
1	Warranty – 3 Years Comprehensive (General Specifications, Page no. 12)	Clause stand as it is.
2	Network accessibility-GSM 2G, 3G (Technical Specifications, Page no. 13)	Should be compatible to GSM 2G as well as 3G.
3	I/O Ports (Technical Specifications, Page no.13)	Minimum 1 required.
4	Server- Multiple Monitoring- Layers of authentication (Server, Page no. 13)	Multiple user like , supervisors, administrators and users.
5	Halting Period Report (Reports: Web Based Reports Generation, Page no.14)	Bidder understanding is correct.
6	Estimated Time of Arrival Report (Reports: Web Based Reports Generation, Page no.14)	Bidder understanding is correct.
7	In BOQ provision of Dashbord Screen and internet facility for that is not mentioned anywhere.	Dashboard is the part of the project & should be provided by the bidder to access the dashboard. Internet will be made available by the Purchaser.
8	Server is an one of the main part of the system and it is kept in optional item, so we need clear idea about entire ecosystem.	Bidder should provide cloud based server. Also bidder has to quote the price of server as an optional item.
